

Israelijudaism: A Portrait of Cultural Revolution

In the aftermath of the Holocaust, the State of Israel was founded as a refuge for Jews from around the world. However, the new state was not simply a continuation of the Jewish communities of Europe. Rather, it was a new kind of Jewish society, one that was shaped by the unique experiences of its founders.

Israelijudaism is a new book that explores the cultural revolution that has taken place in Israel since its founding. The book's author, Dr. Guy Beiner, argues that Israelijudaism is a new form of Judaism that is distinct from both traditional Judaism and the secularism of the Diaspora.

Beiner's book is based on extensive research in Israel. He interviewed dozens of Israelis from all walks of life, including rabbis, scholars, soldiers,

and politicians. He also spent time observing Israeli society, attending religious services, and participating in cultural events.

Beiner's findings are both fascinating and provocative. He argues that Israelijudaism is a complex and multifaceted phenomenon that is still evolving. However, he identifies several key characteristics of Israelijudaism, including:

- A strong emphasis on Jewish identity and nationhood.
- A commitment to Jewish law and tradition.
- A willingness to adapt Jewish tradition to the modern world.
- A sense of pride in Israel and its accomplishments.

Beiner argues that Israelijudaism is a response to the challenges that Jews have faced in the modern world. The Holocaust, the rise of anti-Semitism, and the secularization of the Diaspora have all led Jews to search for new ways to express their Jewish identity.

Israelijudaism is not without its critics. Some argue that it is too nationalistic and that it does not pay enough attention to the universal values of Judaism. Others argue that it is too traditional and that it does not take into account the needs of modern Jews.

However, Beiner argues that Israelijudaism is a vital and dynamic form of Judaism that is well-suited to the challenges of the 21st century. He believes that Israelijudaism will continue to evolve and that it will play an increasingly important role in the future of Judaism.
